Add-ons

Add-ons will result in increase of time spent on the project for planning, developing, and testing. Certain changes may also affect other parts of the application like reports if a field was added.

- Unlimited add-ons (Provide Name, Description, and Fee)
- Registration Coupon
 - Ability to generate coupon codes to receive a discount on the registration fee.
 - Examples:
 - For special situations where very important people missed the deadline and still want the reduced price.
 - If someone wants to start over with a new registration and pay the difference.

Customization

Customizations will result in increase of time spent on the project for planning, developing, and testing. **Certain changes may also affect other parts of the application like reports if a field was added.** Customization within reason is performed at the Ruby on Rails Development rate.

- Additional Form fields
- Donation in addition to registration fee
- Collect PTA
- Document upload
- Email layout
- Waive functionality
- Registration Receipt Generation
